Summary

Jogat Software Development Team

Short Description

Jogat is a software development team situated in Sarajevo, Bosnia and Herzegovina. It is founded as a part of B-inIT b.v., Dutch consulting company. Jogat is established to deliver very fast, high quality and price competitive software development services in web and mobile application development based on Microsoft .NET platform.

Jogat designs and develops applications according to specifications and requirements defined by B-inIT Consultants in The Netherlands.

Cooperation with B-inIT b.v. Consulting Group

B-inIT provides Enterprise Architecture Consulting Services and Project Management Services on the Dutch market. In cooperation with Jogat, B-inIT can execute projects with significantly lower costs providing the same quality by making use of the Scrum Development Process.

Each Scrum Sprint will (mainly) perform these activities:

In The Netherlands:

- Project Management by Scrum,
- Solution Architecture definitions (additions),
- Requirements and Use Case specification,

while Jogat team in Sarajevo will:

- make system and components Design
- develop software,
- perform system and performance tests
- deploy to staging environment at the customer IT Environment.

and at the end together with the customer:

- execute User Acceptance Test,
- deployment in Production Environment
- solution support (quick fixes and adoptions)

Jogat Management Team

Jogat Development Team is managed by O. Mrzljak in The Netherlands and Bosnia and Herzegovina. Please feel free to contact us for any information or question.

Human Resources

At this moment Jogat has 4 contracted employees and several senior developers hired on a freelance basis.

Contracted employees are:

- 1 Account manager for The Netherlands and senior software architect situated in The Netherlands.
- 1 Managing consultant and senior .NET developer situated in Sarajevo Bosnia and Herzegovina,
- 1 senior .NET developer situated in Sarajevo Bosnia and Herzegovina,
- 1 medior .NET developer situated in Sarajevo Bosnia and Herzegovina,

Cooperative freelance consultants situated in Sarajevo are:

- 1 User interface designer
- 1 Graphical designer
- 1 Android and iOS native application developer
- 1 senior web developer.

Services

Jogat offers following services:

- Developing Software Solutions in Scrum driven projects with up to 5 developers. Projects are offered at fixed-price fixed-date cost basis. A price per Scrum Sprint can be arranged for customers working with Scrum projects.
- Including the customers in the development of large projects by assigning a Scrum Master to work at the location with the customer. The Scrum Master defines the Scrum Tasks and organizes Scrum Sprint and the Jogat developers then execute the development tasks in Sarajevo, Bosnia and Herzegovina.

- Delivering the development and daily integration infrastructure completely integrated with the IT systems of the customer. Our customers can trace the development progress, bug reported and solved quality matrices and release management at any moment.
- Providing developers and designers, equipped with a complete tool set, to work on the customer's project on a temporary basis.
